THE KNOWLEDGE HUB

iCADEMY
MIDDLE EAST

The iCademy Middle East Knowledge Hub offers a supportive and safe environment where our individualized style of learning meets the strengths and needs of your child.

About the Knowledge Hub

The iCademy Middle East Knowledge Hub is based in Dubai Knowledge Park. Our Knowledge Hub provides a personalized blended learning environment. Students attending the Knowledge Hub will be assessed and a specific program will be tailored to their requirements. This personalized approach to education allows students to feel supported and understood as they complete each stage of our comprehensive online curriculum.

Learning Coaches

Our qualified Learning Coaches provide guided instruction and face to face support to ensure each student is fully aware of their daily assignments and subject requirements. They provide instruction at a level that makes our curriculum more accessible and manageable for all of our students. Very often students can become overwhelmed when they first embark on the journey of virtual learning, where independence and self-motivation are key skills. Our Learning Coaches are that vital link between student and their online teachers, aiding their development as self-directed learners.

Low Student-Teacher Ratio

We offer a low teacher to student ratio; each student gets the attention they need from their teacher. We nurture and engage each students personal and academic growth. With fewer students per class, students can connect more closely with their peers and become more confident and comfortable when it comes to sharing their ideas and perspectives. Teachers have more time to individualize their feedback, ensuring that each student understands the material, can get the help they need and can reach his or her full potential.

- ◆ Our class sizes are small, so minds have room to expand
- ◆ Each student gets individualized attention
- ◆ Learning is enhanced
- ◆ More feedback

Full / Part Time Options

We offer full-time and part-time Knowledge Hub options for all students from KG to Grade 12. Our classrooms are arranged based on the age and grade level of the students to ensure each child feels confident and comfortable amongst their peer group. Once we have met with you and your student, we will work together to reach your student's full academic potential.

Early Primary Program: KG - Grade 2

In our Early Primary classroom students will be supported in a smaller group environment where our qualified Learning Coaches assist students in all four core subjects, English, Mathematics, Science and History. In addition to the support from their Learning Coach, our iCademy Middle East qualified Online Teachers are also available to ensure that students will receive the necessary support to enrich their learning experience. Our Learning Coaches bring the online curriculum to life through interactive and fun activities, which will allow students to progress and succeed through our blended learning method.

Teacher to Student Average Ratio: 1:8
Day and Time

KG-Gr.1
Monday to Thursday: 8.30 - 14.00
Friday: 7.30 - 12.00

Gr.2
Monday to Thursday: 8.30 - 15.00
Friday: 7.30 - 12.00

Lower School: Grade 3 - Grade 5

In our Lower School classroom students will benefit from a small group environment where our qualified Learning Coaches support students in all four core subjects, English, Mathematics, Science and History. In addition to the support from their Learning Coach, our qualified Online Teachers are also available to ensure that students will receive the required support to enhance their learning journey.

We recognize that at this stage in a child's development, they have not yet acquired the skills to be fully independent and self-motivated learners. It is our goal to encourage our students to see education as an opportunity to take more control of their own learning. Our Learning Coaches bring the online curriculum to life through interactive and fun activities, which will allow students to grow and flourish through our mastery-based approach to learning and assessment.

Teacher to Student Average Ratio: 1:10
Day and Time
Monday to Thursday: 8.30 - 15.00
Friday: 7.30 - 12.00

Middle School: Grade 6 – Grade 8

In our Middle School classroom students will continue with all four core subjects, English, Mathematics, Science and History with the assistance of their Learning Coach and Online Teachers. Students will work independently on electives and KHDA courses.
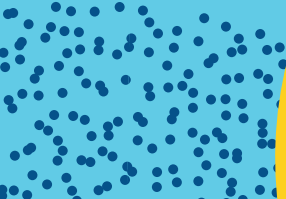

At this stage in students' learning, they will have attained some basic skills required to become self-directed and independent learners. We provide a Learning Coach to work with students in a way that will scaffold their learning and understanding throughout grades 6 to 8. Students receive the necessary support to encourage them to develop a deeper level of understanding and critical thinking skills. Students will work with a greater level of independence, but also attend group sessions where the Learning Coach provides greater detail and instruction. This setting encourages group discussions where opinions and attitudes can be explored.

Day and Time

Monday to Thursday: 8.30 - 15.00

Friday: 7.30 - 12.00

# High School: Grade 9 – Grade 12

In our High School classroom, students should have developed the skills to become more independent learners and critical thinkers. We offer our High School students a quiet and structured environment which optimizes focus and productivity. They will work alongside a qualified Learning Coach who will assist and direct them as they require. The Learning Coach acts as communicator/facilitator between the student and their Online Teachers, so that the student feels supported in their path to independent learning. In High School, students must take responsibility for their own learning and work alongside their Learning Coach in order to succeed.
